FREIGHT AGENT IS COLLECTING DATA ON LOCAL SUPPLY OF COAL ON HAND

John C. Willis Gets Figures From All Public Institutions Here.

GOVERNMENT TO TRY TO HELP THE PUBLIC

Supply of Dealers in Albany-Decatur is Already Getting Low.

John C. Willis, of Birmingham, freight service agent of the Louisville and Nashville railroad, is in Albany-Decatur today obtaining data in regard to the coal supply of the local public utilities and other institutions serving the public.

According to Mr. Willis the government will make every effort to protect the general public should the coal strike be called November 1, in accordance with the strike orders already issued.

"I am not getting figures on any private company," he explained, "but only on institutions either belonging to or serving the public and upon which the public depends for lights, power, transportation, etc."

"I have obtained figures on the hospitals, the public service corporations here, the municipal governments, etc., and the government hopes to be able to furnish enough coal to operate those institutions and similar ones, in case their supply should run short."

"These figures are being collected all over the nation as one of the government plans for preparations for the coal shortage which is bound to result, if the strike is of long duration."

Mr. Willis was asked regarding the report that the railroad administration will discontinue handling any other freight except coal in coal cars, but stated that he had received no orders to that effect.

Inquiries among local coal dealers today indicated that a very small supply of coal is on hand. Some of them, however, have fairly large stocks while others are without any soft coal. Many of the regular customers have stocked up for the winter, one coal dealer stated.

FLEMMING NOW IS WITH PHONE CO.

T. F. Flemming, for six years in the employ of the Southern and Louisville and Nashville at the Decatur, union station and for several years in charge of the ticket office there, has resigned to accept a position with the Southern Bell Telephone company as Decatur manager.

Mr. Flemming has been succeeded by J. W. Willis, formerly ticket agent at Sheffield. During his administration of the union ticket office Mr. Flemming made a host of friends through his unfailing accommodation of the patrons of the two roads.

Women Rescued by Soldiers When a Gary Hotel Burns

GARY, Ind., Oct. 29.—Soldiers on strike duty in the steel mill section of the city aided in the rescue of a score or more women when the Union Hotel was partially destroyed by fire today.

Divers Searching Lake for the Dead

TWENTY-ONE PERSONS DROWNED WHEN STEAMER WENT DOWN.

(International News Service.) MUSKEGON, Mich., Oct. 29.—Divers today began a search for the bodies of 15 of the 21 persons drowned when the lake steamer Muskegon, caught in a terrific storm yesterday, was dashed to pieces against a pier at the entrance of the harbor here. Seven bodies have been recovered so far.

MEXICAN GOVERNMENT BEGINS PROBE OF JENKINS KIDNAPING

Attorney For American Consular Agent Reported to Have Been Arrested.

(International News Service.) MEXICO CITY, Oct. 29.—An investigation of the capture of W. C. Jenkins, American consular agent at Puebla, by Mexicans, who released him upon the receipt of \$150,000, is being made at Puebla by Mexican government authorities, it was announced today.

Eduardo Mestre, attorney for Mr.

Jenkins, who paid the money to the Mexicans and acted as loan agent in securing the release of the American official, is reported to have been arrested at Puebla and subsequently released on 10,000 pesos bail. A dispatch from Puebla said that after his release, Mestre declared: "that rumors that the consular agent had not been kidnapped were absolutely unfounded."

DESPONDENT OVER CHILDREN'S DEATH, ILL, TAKES POISON

Funeral services will be held this afternoon from the Lutheran church for Mrs. Barbara Knittel, wife of Frank Knittel, well known Albany resident, who died yesterday afternoon shortly after two o'clock. It is said the deceased had taken a dose of barbitic acid a short time before her death.

Mrs. Knittel had been in ill health for some time, suffering from a nervous trouble and was very despondent over the death of her children, seven of whom have died in recent years. For some time she has been in the care of a nurse.

Yesterday Mr. Knittel left the room to prepare his dinner and while her nurse was absent also, Mrs. Knittel is believed to have taken the poison.

Mrs. Knittel is survived by her husband and two brothers, both of whom live in Nashville.

Funeral services today will be conducted by Rev. J. H. Heisenan, pastor of the Lutheran church and interment will be made here. Mrs. Knittel was popular with a wide circle of friends and her death came as a great shock to them.

TWIN CITY TIRE COMPANY TO OPEN

NEW CONCERN TO OCCUPY THOMPSON BUILDING ON SECOND AVENUE.

The Twin City Tire Company is the newest addition to the mercantile establishments of Albany-Decatur. It will open for business on November 1 in the Thompson building on Second avenue, just north of the Daily office. J. Marion Naff, of Birmingham, the proprietor, arrived here today to arrange for the opening of the new establishment.

"We will deal in automobile tires and tubes, and a little later on will place a line of automobile accessories in stock," said Mr. Naff. "We expect to sell a tire with a 5,000 mile guarantee for considerably less money than they can now be bought, our proposition to be explained fully through the advertisements which we will carry in the Daily. We expect to cover a wide territory, working out to Hartselle, Athens, Moulton and other communities."

BREWERS TO ATTACK PROHIBITION LAW

(International News Service.) WASHINGTON, Oct. 29.—Declaring that the prohibition enforcement bill is unconstitutional, Hugh F. Fox, secretary of the United Brewers association, announced here today that an immediate suit would be brought to test it.

United States collectors have been instructed by commissioner of Internal Revenue Roper to get in touch with governors and mayors in each state in urging upon sheriffs and all other local officers the vital necessity of immediately assuming their responsibilities in the enforcing of nationwide prohibition.

RAILWAY MEN ARE WAITING FOR NEWS OF GENERAL STRIKE

(International News Service.) WASHINGTON, Oct. 29.—Union railway workers to the number of nearly 2,000,000 are watching Washington today. Whether a general railway strike will be called, stopping every railroad wheel in the nation, hinges on the answer forthcoming some time today from the railroad administration to the demands of the brotherhood of railway trainmen and the brotherhood of railroad conductors.

COHEN WILL OPEN BANK STREET STORE

A. D. Cohen, prominent Albany merchant, today announced the purchase of the millinery stock of Miss Augusta Evans, on Bank street. The stock will be sold out.

Mr. Cohen also announced obtaining a lease on the Lyons building on the corner of Bank and Lafayette streets, now occupied by L. Lesser, effective January 1. A large stock of dry goods and clothing for the entire family has been purchased and will be placed in the new Cohen store the first of the year.

Mr. Cohen will temporarily occupy the Evans store for the remainder of the year. The style of the Decatur firm will be Ory-Cohen.

LABOR CONFERENCE OPENED AT NOON

DELEGATES PRESENT FROM THIRTY-TWO COUNTRIES GERMAN EN ROUTE.

(International News Service.) WASHINGTON, Oct. 29.—The first international labor conference to be held under the terms of the peace treaty, began its work here today meeting in the room of the Pan-American building where less than a week ago America's first industrial conference breathed its last.

Delegates from 32 allied and neutral countries are attending, and within a few days German and Austrian representatives will arrive.

SYNODICAL SOCIETY IS MEETING TODAY

The annual meeting of the Alabama Synodical Society was opened last night at 8 o'clock in the Westside Presbyterian church when an interesting program was rendered. The opinion session was preceded by a meeting of the Society's executive committee when work for the coming year was planned and the results achieved last year reviewed. Sessions were held this afternoon and the meeting will be brought to a close tonight with the presentation of a play-let, entitled "A Monday Morning Clinic in San Juan Hospital." The cast of characters is made up of young people of the Westside church.

COMMITTEE WILL CONFER WITH BOND BUYERS THIS WEEK ON \$360,000 ISSUE

Council Again Fails to Accept Offers of the Brokers for Paper.

CITY MAY HAVE BONDS PRINTED AND APPROVED

Levine Suggests That They Would Bring Municipality More Money.

A committee composed of the City Attorney, City Treasurer, Mayor and Chairman of the Finance committee, will take up the sale of the city's \$360,000 bond issue with prospective buyers, following a meeting of the Albany council last night when the sale of the bonds was discussed without definite action.

W. J. Nesbitt, representative of Mallory and Mallory, of Montgomery, offered 96 for the bonds while J. M. Levine, representative of Steiner Brothers, of Birmingham, offered to buy the bonds, subject to attorney's approval, and meet the highest bid offered by other companies.

Mr. Levine suggested to the council that the city would get more for the bonds by having them printed and approved and then offering them for sale. He estimated the cost of printing and obtaining approval of attorney at \$2,000.

Following discussion of both offers the councilmen agreed on a committee to confer with representatives of all the bond buyers and get definite propositions from each. If the committee finds that the bonds will bring more after being printed and approved, it is probable that the city will have the work done itself instead of authorizing the bond buyer to do it.

D. A. C. WORK HARD FOR ST. BERNARD

Coach Rush is running his Decatur Athletic Club squad through a vigorous program of work this week in anticipation of the contest Friday with St. Bernard.

Green, former star of the Albany high school several years ago, is back in harness and will appear in the local line-up Friday. "Dutch" Mitwe, Howard Lively and several other "hefties" have been added to the line and St. Bernard will face a far stronger aggregation than the one that went down to a crushing 48 to 0 defeat before Hartselle. St. Bernard was defeated by Hartselle, also, but by a much smaller score than the D. A. C.

TWO AMENDMENTS ARE VOTED DOWN

(International News Service.) WASHINGTON, Oct. 29.—By a vote of 31 to 49 the senate this afternoon defeated the Sheild's amendment to equalize voting strength of the United States and Great Britain in the league of nations assembly.

(International News Service.) WASHINGTON, Oct. 29.—The Moses amendment was defeated in the senate today 47 to 36.

Booze Artists Are Blamed for Sugar Famine by Hoover

(International News Service.) WASHINGTON, Oct. 29.—Sugar consumption in the United States has increased 350,000 tons a year, as a result of the country's going dry, asserted Herbert Hoover, former food administrator in testifying today before the house committee investigating war department expenditures in foreign countries.

NEGRO, HIDING UNDER BED, CAUSES PRETTY ACTRESS TO FLEE FROM HOTEL ROOM

Every effort of the Decatur police today was directed toward running to earth the negro who, discovered under the bed of Miss Jackie Winters, pretty member of the "Step Lively" chorus, caused the dainty actress to flee into the hallway of a leading local hotel last night, clad only in a few intimate articles of clothing and a dressing gown.

According to the story told the police, Miss Winters, after the show at the Masonic last night, retired to her room and began undressing. After removing practically all of her clothing, she noticed an object under the edge of her bed. An investigation disclosed the presence of a negro.

Screaming, the frightened woman rushed into the hall way and called for aid. After tracks were found on the fire escape, it is stated, indicating that the negro made his escape via that route.

Miss Winters is a very popular member of the company, and before their departure for Florence, officials were promised every assistance possible in the search by the other performers.

BOOZE BAN ONE REASON FOR THE SUGAR SCARCITY

(International News Service.) WASHINGTON, Oct. 29.—Some remarkable facts have been brought to light in the Senate investigation of the sugar famine.

The most surprising one is that thousands of men who never before entered a soda fountain are now rushing the ice-cream soda as enthusiastically as they formerly "rushed the growler."

Experts blame this new class of sugar consumers on prohibition, pointing out that in the absence of alcoholic drinks men indirectly satisfy the craving for them with sugar. The extent of the inroad upon the sugar supply is indicated by the statement of one food expert that this is a leading cause for the sugar shortage.

Another discovery is that large numbers of girls, getting better salaries than ever before, are on a "spending spree," as Dr. Alonzo Taylor, of the Food Administration, characterized it.

Dr. Taylor has also reached the conclusion that the American people, never characterized generally as thrifty, are even more reckless since he war's end, with its release from sense mental and business strain. He testified recently that he did not believe the price of anything, no matter how high, is a deterrent to the American who desires to purchase the article in question, but on the other hand, the American is more likely nowadays to pick an article for its high price instead of seeking the lower price.

FLAMES IMPRISON SCORE OF MINERS

(International News Service.) CANTON, O., Oct. 29.—Fifteen to 20 coal miners are imprisoned by fire at Mine No. 2 of the Youghiegheny & Ohio Coal Company, at New Amsterdam, 12 miles east of Carrollton, according to word received here this afternoon.

The fire started at 10 o'clock and is said to be gaining rapidly. A number of men escaped by way of the air shaft before the entrance of the mine was cut off by the blaze.

Chicago Liquor Men Seeking a Market; Will Test Statutes

(International News Service.) CHICAGO, Oct. 29.—Advised by their counsel, Levi Maher, that war time prohibition is over, that the "lid" is off and that the Illinois search and seizure law is inoperative, liquor dealers in Chicago are today reported preparing for a legal fight to a finish in an effort to dispose of their collective stocks of 15,000,000 gallons of liquor.

QUIT AMERICAN FEDERATION BECAUSE RADICAL TENDENCIES

(International News Service.) WASHINGTON, Oct. 29.—Declaring that high officials of the American Federation of Labor are responsible for "tendencies to threaten the foundation of the government of the U. S.," a union of draftsmen employed in the treasury department has withdrawn from the American Federation of Labor.

The movement is part of a general campaign to secure withdrawal by all government employees' unions from the federation of Labor.

FUEL CONTROLLER VISITS PRESIDENT IN CONNECTION WITH COAL STRIKE

Dr. Garfield Reticent as to His Mission, Which Looks Significant.

UNION LEADERS MEET AT INDIANAPOLIS TODAY

Strike on November First is Now Regarded as Inevitable.

(International News Service.) WASHINGTON, Oct. 29.—Dr. Harry A. Garfield, former fuel administrator, appeared at the white house today. "I have been sent for," said Dr. Garfield, "and have been keeping in touch with the coal situation." Further than that, Dr. Garfield would not talk.

OPERATORS MAKE APPEAL

(International News Service.) KANSAS CITY, Oct. 29.—It became known today that an appeal to be governors of Missouri, Kansas, Texas, Oklahoma and Arkansas had been made by F. W. Lukins, president of the Southwestern Interstate Coal Operator's association, to submit the entire wage scale controversy to arbitration.

The object of the appeal, it is said, is to permit the public to become acquainted with the position of the operators, and their desire to go as far as possible to protect the interests of the people in the impending coal strike.

STRIKE IS INEVITABLE

(International News Service.) INDIANAPOLIS, Oct. 29.—The strike of soft coal miners of the nation is inevitable.

This was the general opinion of officials of the United Mine Workers of America as they went into conference here today to frame a reply to President Wilson's plea that the strike order calling out half a million miners on Friday at midnight be recalled.

Only two possibilities appeared to lay a tie-up of the bituminous coal production of the U. S.—drastic action by the government or overtures from the operators, paving the way for an agreement.

"Status quo prevails," was the final word of John L. Lewis, acting president of the mine workers, as the doors of the conference closed upon the executive session.

EGYPTIANS RIOT; TWO ARE KILLED

(International News Service.) LONDON, Oct. 29.—Two rioters were killed, ten injured and 27 soldiers hurt in another outbreak at Alexandria, Egypt, today, said a dispatch from that city. Two lorries filled with British troops were attacked and missiles were thrown, hitting several of the troopers, who replied by firing into the crowd.

Fate of Child is Still a Mystery

(International News Service.) HAMILTON, Oct. 29.—Billie Danzey's fate today is more of a mystery than on October 8 when the baby toddled off and vanished in the flowers of the fields back of his home. Detectives today declared that when their last clue ended in futility at Newark, there too ended hopes of being able to clear away the mystery by deciding the boy was kidnapped.

No More Bulletins on Wilson's Health

(International News Service.) WASHINGTON, Oct. 29.—The President's condition has reached a point where it will be no longer necessary to issue bulletins as to his health, Dr. Grayson stated this afternoon.

BRIDGING THE TENNESSEE; A GREAT UNDERTAKING

The dream of the Twin Cities—a passenger bridge across the Tennessee river—is nearer fulfillment today. For the first time since the project was first discussed—goodness knows how long ago—something tangible has been done. A bridge-building company has been formed, and plans perfected for placing its stock on the market. Experienced men have undertaken the task of selling this stock, and it is expected that they will be successful.

The need of a bridge has always been patent. The majestic stream that laves the wharves of Decatur and Albany has been a commercial barrier that has turned back a volume of business from the Twin Cities as effectively as a sea wall hurls back the foaming spray into the ocean from whence it came. In the old days, however, when the South was recovering from the impoverishment that resulted from the Civil War, the barrier was more local. With changing conditions and the advent of a new era of prosperity, the whole Tennessee Valley is affected and interested in spanning a chasm that diverts tourist travel from this section; a chasm that stands in the way of the construction of the Muscle Shoals highway from west to east; a chasm that halts the building of a network of electric railroads that should extend from the Wilson Dam to Chattanooga.

Sheffield and Tusculum, Leighton, Town Creek, Courtland, Moulton, Hartselle, Athens and many smaller towns in this territory are as keenly interested in the building of this bridge as are Albany and Decatur. Its completion means the development of the entire Tennessee Valley; it means more business, more population, more progress and more comforts and conveniences. And to the owners of the stock, it should also mean a handsome return on their investment.

SENATOR JOHNSON IS DULY SQUELCHED

The American Senate is no respecter of persons when it comes to killing amendments to the peace pact. This august forum voted down the amendment of Hiram Johnson of California with the same unctious that it voted down the amendment of Senator Fall of New Mexico. One and all, the improvements which various republican politicians suggested for the document drawn by Woodrow Wilson, Lloyd George and Georges Clemenceau were nipped mercilessly in the bud. They served just the same purpose that a subject does at a debating society. When the necessary amount of verbal hot air had been emitted, the knife was applied and off went the amendment. Now that Johnson had been notified that his services are not needed as a treaty-maker, he can devote more time to other phases of his campaign for the presidency.

POINDEXTER'S HAT IS IN THE RING

The race for the presidency formally opened Monday when Miles Poin Dexter, U. S. Senator from Washington, lifted his little sky-piece and tossed it into the ring. The fedora, however, was shied with but little momentum, and hardly reached the edge of the great swirling pool of republican politics. The immature boom which Poin Dexter started for himself will hardly survive until convention time, for the gentleman from the Far West has but little claim to the honor he seeks. It is true that he has made himself obnoxious in his partisan opposition to the peace pact and the league of nations, but not so much so as Johnson and Lodge, western and eastern bidders for the honor of a nomination. Poin Dexter has also promulgated a platform that is broad enough to suit the man of

every shade of opinion, but he will prove a mere amateur at straddling compared with some of his opponents for the place he seeks. In fact, the Washington senator is obscured by the greater political capacity of Johnson and the greater prestige of Lodge. There are a dozen members of his party who stand a better chance to carry the banner in the race of 1920.

WILL THE TWIN CITIES OBSERVE ARMISTICE DAY?

Armistice Day—November 11—is rapidly approaching, and so far no plans for its celebration have been made locally. Neighboring cities are announcing programs befitting the occasion. Will Albany-Decatur be equally as alert and patriotic? Certainly some fitting recognition should be taken of the fact that on November 11, one year ago, the mighty German armies capitulated to the fighting forces from America; the Old world acknowledged the supremacy of the New. This was one of the greatest days in the history of the republic, comparing with Independence Day in importance and sentimental interest. It should be observed.

JUST IN PASSING**WANTS GAMES**

The sporting editor of The Ledger is in receipt of a letter from F. D. Dowdy of the Morgan county high school football team in which is expressed a desire to meet teams from Birmingham.

The Morgan team has defeated St. Bernard college 24 to 6, Decatur Athletic club 47 to 0, Cullman 12 to 0, Wills' academy at Huntsville, 32 to 13. This leaves two strong teams north of Birmingham for Hartselle to play—Albertville and Hamilton—Albany High and Sheffield already having been beaten by teams beaten by Hartselle.

"We desire games this season from these schools," Mr. Dowdy writes, "especially Albertville, who has laid claim to the state championship. We would like to secure a game also with one of the teams around Birmingham at once."—Birmingham Ledger.

THE WORLD WONDERS

"Albany and Decatur have attracted the attention of a large part of the southeast on their consolidation issue," said O. C. Parker, well known salesman of the Decatur Cornice and Roofing company, who has just returned from a 4,000 miles automobile trip through the southern states. "The southeast is interested in the outcome of the merger campaign but I found after talking to hundreds of citizens of the communities I visited that they all wonder why there is opposition to the consolidation of the two cities into one large one. Many of my friends, whom I have visited for years, understand the local situation fairly well. In the old days I had to spend hours telling them where New Decatur was—then later I had the same experience telling them where Albany is, now I want to tell them of a consolidated city, the fastest growing one in the south, and end my troubles forever."

J. A. Kay, of B. F. Kay and Son, of Lacey Springs, was a business visitor here yesterday, selling 63 bales of cotton to the Bashinsky Cotton company for 38%. Mr. Kay is postmaster at Lacey Springs, handling a large number of periodicals. He paid the following compliment to The Daily.

"The Albany-Decatur Daily is the only real newspaper the Tennessee valley has ever had and the valley should be and is proud of it."

out of the war?"
"Cooties, flu—and prohibition," was the answer.

Athens News

A. J. Gusham had the misfortune to lose his home by fire about 6 p. m. Sunday. He will rebuild at once as houses are not easy to secure now. By mistake the report was circulated that the water main had burst when as a matter of fact the water was cut off only a very short time, changing from the tank to direct pressure on the main from the pump. The flames had good headway too before any alarm was given.

The M. E. church building was sold Saturday for \$12,000 and the committee bought a lot near the parsonage for \$4,000. As soon as plans can be secured the building will be erected as the flock needs a larger house and Sunday School room. When they give possession the services will be held in the College Music Hall till the new church is completed.

The Methodists had planned a "Turkey dinner" for early in December, but plans are changed and the hungry can be fed November 22nd. A Bazaar will be held then with lots of lovely articles for Xmas gifts. Later there will be the "white sale" by the Christian ladies. These two congregations are hard at work as both plan on new houses of worship soon.

Mrs. John R. Simpson spent the week end visiting her daughter, Mrs. R. H. Richardson, Jr. She received a glad welcome from her host of friends.

Miss Cora Lee Stonestreet recently returned from St. Vincent Hospital, Birmingham, where she had been for treatment. She is improving slowly with the careful nursing of her loved ones in her home. Her many friends are glad to have her home but sorry it is caused by illness and hope for her speedy recovery.

The Athens power plant will be closed down for extensive repairs and when opened again will be one of the best municipal plants in Alabama. This plant had made the city much money before the war raised cost of operation.

The street work has been held up on account of hard rains but with Old Sol shining this week sees it progressing and the square will be finished, weather permitting, in about 20 days.

Roll Call, Special Sermon

And Music at THE FIRST CHRISTIAN CHURCH, Sunday, Nov. 2.

THOUGHT

Belgium

It is only a bit of ground in this huge world.

The North

Lets loose the biting wind over it. It is only a bit of earth with its sea bordering it.

With its long line of barren downs. But it still holds its Queen and its King.

And the aggregate love of a people that worships them.

O Flanders,

That is how thou livest—bitterly—to-day.

That is how thou art living

In Glory and its flame, in Mourning and its ashes.

In former times I used to love thee so I could not believe I would ever be able to love thee more.

But now I know the infinite fervor

That accompanies thee, Flanders, through thine agony,

And assists thee down to the brim of Death,

And even there are days of folly and rage

When my heart craves to see thee more pitiful still

So as to be able to kill itself by loving thee more.

BLACKWELL-BROWN

Mr. and Mrs. David Blackwell announce the marriage of their daughter, Evelyn, to Mr. Paul Brown, that was solemnized today at two thirty at the First M. E. Parsonage, Rev. G. M. Davenport officiating. This announcement will be of great interest to a large circle, since the contracting parties are very popular young people, both locally and in North Alabama. The attractive bride wore a travelling suit of brown with moleskin trimmings, a close fitting hat of Black Hackle feathers, black gloves and shoes completed a chic costume, she carried an arm bouquet of pink Killarneys. They were accompanied to the parsonage by Misses Pansy Russell, Mary Penick, Mrs. T. M. Jones, Jr., and Garner Pride, who accompanied Mr. and Mrs. Brown to the station and sent them on a North bound wedding journey. They are expected to return Saturday when they will be at home with the groom's parents, Mr. and Mrs. Frank Brown of Oak street, Decatur.

TUESDAY AFTERNOON CLUB

Mrs. Alexander Humphrey entertained the Tuesday afternoon club on yesterday. Vases of beautiful Chrysanthemums—gift flowers—formed the decoration. The game of bridge was played at five tables. In the club Mrs. T. H. Alexander made top score. Mrs. O. Kyle won the guest prize. Guest list included Mesdames R. H. Wolcott, A. A. Hardage, M. L. Hardage, Gordon Mc Duff, William Russell of Madison, Milton Harvey, Brentz Preuit, Misses Mary Penick and Kate Hardage.

After the presentation of prizes a lovely salad was served.

DANCE FRIDAY EVENING AT COLONIAL CLUB

A dance will be given Friday evening at the Colonial club, dancing to begin at 10 o'clock and continue until two. An eight-piece jazz orchestra from Nashville will furnish the music. Many out-of-town girls will attend.

Mr. and Mrs. Jackson Edwards and Mrs. Roy Rushton Smith arrived this afternoon to visit Mrs. M. L. Hardage.

MISSIONARY SOCIETY

The Missionary Society of the First M. E. church, Decatur, met with Mrs. Clyde Hendrix Monday, Oct. 27, in an all day meeting. Palms and cut flowers in the hall and living rooms made the home very inviting. Mrs. J. T. Jones held the morning devotion and Mrs. S. D. Johnson the afternoon devotion. The Mission Study, "Women Workers of the Orient" was given by Mrs. G. M. Davenport in an impressive and interesting manner. After the study the President took the chair and dispatched important business. A rummage sale was decided upon to be given last of this week. Mrs. F. H. Pointer will be hostess to the November all day meeting.

Meaning Is Same.

Massachusetts, Pennsylvania, Virginia and Kentucky are officially styled commonwealths, although there seems to be no particular reason, except custom, as commonwealth has practically the same meaning as state.

WHOLE SYSTEM RUN-DOWN

Quick Improvement Is Noted After A Few Doses of ZIRON Iron Tonic.

Increase in appetite, the coming back of strength, disappearance of headaches and other ills are a few of the many good results obtained from the use of a new remedy (Ziron Iron Tonic).

Mr. Sim Grimsley, of Cordele, Ga., tried Ziron and has this to say: "When I began to take Ziron, it seemed that my whole system was run-down, but soon after I began to take Ziron, I could eat more each day and would feel I great deal better. Ever since it seems that my health has been improving, as I seldom have the headache or feel bad the least bit."

Ziron is a new scientific combination of pure medicinal inorganic iron, combined with phosphorus, the active principle of nux vomica and the hypophosphites of lime and soda. It will help to do more red corpuscles to your blood, resulting in more color in your cheeks—more vitality in your system. Try Ziron today; on the money-back guarantee.

AMUSEMENTS

"BRINGING UP FATHER" AT
THE MASONIC SATURDAY

The latest play founded on the popular comics of "Bringing Up Father" the world renowned cartoons created by George McManus, will be the offering at the Masonic theatre Saturday afternoon and night. It bears the infectious title of "Bringing Up Father In Society." As might be inferred the theme of the attraction revolves around the efforts of "Jiggs" Mahoney, "Mother," "Dinny," and the rest of the Mahoney clan to break in to the charmed circle. In justice to "Jiggs," who is better known as "Fatehr," it may be chronicled here and now that he is forced to enter "society" against his will. How he fares, how he meets and opposes the best laid plans of his wife, "Mother," how he arouses laughter, mirth and paves the way to gaiety, joy, happiness, and gladness unconfined, is entertainingly described in three rollicking and side-splitting acts, each vedded to catchy and original music. The cast is a large and competent one in which a chorus of pretty and vivacious young women predominate. Matinee at 3 o'clock.

THE UPLIFTERS—DELITE
THEATRE THURSDAY

"The Uplifters," which comes to the Delite theatre on Thursday next, is a delightfully original story, in which charming May Allison shines at her best. The play, written by Wallace Irwin and published in the Saturday Evening Post, is an amusing satire on the "unshackled free," who believe in uplifting the world by upsetting the traditions of convention. Lortense Troutt is happy in her work until she attends the Button Makers' Rally. Here she listens to the lurid talk of a ranting woman radical and immediately feels that she, too, is one of the downtrodden. She hies her to the haunts of the long-haired men and short-haired women where she is hailed as "comrade!" At first she is fascinated by the life and also by a languishing poet who makes violent love to her. What is her horror, however, to find that he has already three perfectly healthy wives! There are other things too that make Lortense long for the greater freedom of her former conventional life. The story is brilliantly played and is full of amazing surprises.

SUNNY SOUTH SCENE
OF NEW PHOTOPLAY
DELITE WEDNESDAY

"A Daughter of the Old South" Splendid Production.

The sunny South, laden with the sweet scents of orange blossoms and magnolias, is the scene of Pauline Frederick's newest photoplay, "A Daughter of the Old South," which will be shown at the Delite Theatre Wednesday. The picture, which was written by Margaret Turnbull from the story of Alicia Ramsey and Rudolph de Cordova, and directed by Emile Chautard, is said to have provided Miss Frederick with one of the most appealing roles she has essayed for many months.

Miss Frederick appears as a beautiful Creole girl whose love story, filled with lights and shades, laughter and tears, is charmingly told by the star in a series of exquisitely

heart appealing scenes. Supported by a company of excellent players, Miss Frederick's latest starring vehicle is one of supreme importance to her admirers the country over.

ADELAIDE THURSTON IN
"WHAT'S YOUR GAME?" AT
MASONIC THURSDAY

Would you be interested in knowing how to become your husband's ideal after a woman friend, a guest in your household, had done all in her power to take him from you? If so, it is suggested that you plan to go to the Masonic theatre on Thursday night, October 30th and see Marion Short's latest play of love and mystery, "What's Your Game?"—wins back her husband after the woman friend has tried to entangle him and compromise the wife.

In "What's Your Game?" Miss Thurston portrays the part of Laura Fordham and the action of the piece takes place in the living room of the Fordham home on Long Island, during an afternoon and evening in summer. To the home has been invited Margie Potter to spend the week-end. Shortly after her arrival she plans to win the love of her friend's husband. To attain this end she tries to force an unpleasant situation on the young wife. Fortunately Laura Fordham (Miss Thur-

ton) foresees the danger that is ahead of her and makes plans to meet it. Just how she foretells the enemies working under the covers of her roof, discovering their game and planning one of her own, is told in the scenes that follow and hold the auditor in suspense until the final curtain.

Miss Thurston has selected a very competent cast of metropolitan players to support her in "What's Your Game?" and promises her many admirers a warm treat in her latest vehicle.

The engagement of "What's Your Game?" at the Masonic Theatre on Thursday night is limited to one performance only.

WANTED TO ENJOY FUNERAL

(International News Service.)
HILLSBORO, Ill., Oct. 29.—James H. Houser, seventy-five, is all ready to die now. In fact he has already buried himself. Believing funerals should be enjoyed while living, he has had his staged here recently. Many friends attended. They sang "Nearer My God to Thee" and a lot of other funeral songs after a minister delivered Houser's burial services. Houser has prepared his own obituary. The ceremony was held at a church and at the Houser home.

Uncle Sam Spend Million and Half to Store Riches

(International News Service.)
WASHINGTON, Oct. 29.—"Yankee Doodle" is not such a bad parody after all.

Uncle Sam has so much money these days that he is thinking nothing at all of spending one million and a half dollars just for a place to store his riches.

His present coffers are overflowing, his silver is bulging out the walls of his storehouses, and, as for his gold, well, listen to what Assistant Secretary Rowe, of the Treasury Department, has to say about his request to Congress for a \$1,500,000 appropriation for the construction of a modern three-story structure to be erected in the court of the present Treasury Department Building:

"Present vaults are antiquated. The walls of steel lattice work are pressed out of shape by the weight of silver stored in them. There should be modernized, made safe, and additional vaults should be provided for present

and prospective requirements. Foundations are shaky, and the cash room should be improved to allow adequate transaction of business."

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE CARDUI The Woman's Tonic

She writes further: "I am in splendid health... can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

"Southern" Tires Give More Than Their Full Guaranteed Mileage

The makers guarantee 5,000 miles.
The tires double it—10,000 miles.
Mr. Pete Calamas says, 17,000 miles

over the roughest kind of roads—between Augusta and Camp Hancock. He writes:

"At times the roads were in horrible condition—slush half way up to the axles. I equipped the rear with two 34 by 4½ 'Southern' tires. One of them did 17,000 miles before it was worn out—the other one is still on the car and running."

"Southern" Tires are Thick Tires

"Southern" tires are hand made tires—built layer on layer by skilled tire makers. The best materials are used: fabric made of extra strong Sea Island cotton; pure gum, fine Para and Ceylon plantation rubber, new and live, and high-grade compounds.

"Southern" tires are tough, resilient and very hard to puncture. The treads are one-eighth to one-fourth of an inch thicker than most other treads. The side walls are one-thirty-second to three-thirty-seconds of an inch thicker than those of most other tires selling at about the same price.

There are "Southern" tires for every car, plain and non-skid treads. When you next need a tire think of the above facts and let your good tire judgment lead you to select a "Southern".

Capital Observes "Armistice Day"

MONTGOMERY, Oct. 29.—Montgomery is making elaborate preparations for a state-wide observance of Armistice Day, November 11, when General R. L. Bullard, Major General McIntyre, and Major General W. L. "Bert" will be guests of honor and will review the parade. General Bullard also will deliver the principal address of the day.

Several hundred rainbow veterans in uniform will take part in the parade, which is under the direction of the former commanding officer of the Alabama Regiment in that division. Many of the other Alabama organizations will also be present and join in the parade.

ONLY U. S. CAN CHECK THE RED ADVANCE

AMERICAN RAW MATERIAL MUST BE RUSHED TO EUROPE.

(International News Service.) BOSTON, Oct. 29.—If the United States should stop exports Europe would be thrown into chaos, declares Edward A. Filene, president of the United States Chamber of Commerce, who has just returned from a six months' study of industrial conditions abroad.

A broader policy of industrial benevolence must be adopted by America if Europe is to be saved, said Mr. Filene.

While he found the situation rather gloomy in many countries he believes there is a ray of light in the willingness of the people to get back to work and again become producers.

"The war is only half won," he continued. "Europe is in the position of a citizen assaulted by a highwayman and seriously wounded. The United States must bind the wounds if the nations over there are to recover and become factors in the world's prosperity."

European countries are handicapped in restoring their industries by the lack of raw materials, says Mr. Filene. These they must buy from the United States. In addition to the already high prices they must pay ocean freight and the difference in rate of exchange. The latter ranges from twenty-five to six hundred per cent above normal value.

Here lies the solution of Europe's troubles by the United States as the Boston man sees it.

He proposes that a system of long term loans be arranged for those nations in this country. Such credits would be used to buy raw materials in America without paying the exorbitant rate of exchange. With raw materials foreign industries could be resumed, the nations would become producers and when the time came to repay the loans in five or ten years, he believes, the exchange would have returned to normal. A fair rate of interest would, of course, be included in the loans.

If the people are kept idle and without food and comforts, Mr. Filene predicted, they will become the prey of irresponsible revolutionary propaganda, which will in time infect the rest of the nations.

"It is easy to see what would be the result to the United States commercially," he said. "All Europe would be like Russia and no American firm

attempts to do business with Russia now."

"The purpose of the Chamber of Commerce of the United States in bringing to America the distinguished men who compose the Belgian, French, British and Italian missions," Mr. Filene said, "is to give Americans everywhere a chance to meet them, face to face, to ask them questions, to confer with them, and thereupon to make up their minds as to conditions in Europe and what they want to do about it."

"My own impressions of the last six months can be briefly given in a few words. Five years of unprecedented production. No theories of new division of what wealth is left will put the world back to what it was before the war. Nothing but intensive production can do that."

"If half the world produces intensively and the other half that produced intensively before the war is idle it will take at least ten years to restore the world balance of necessities and comforts, and in the meantime the idle people, lacking food and comfort, will be the prey of irresponsible revolutionary propaganda."

"The people of the United States have the good will and the common sense not to allow this to happen to Europe and the world."

"In time Europe will pay us back with her production, but if, until they can get production properly going again, they cannot obtain proper credits, then they must not only buy from us what they need at double pre-war prices, but also must buy our dollars to pay for these purchases at almost an unbearable increase over the pre-war value of the dollar."

"On moral and ethical grounds, our duty is clear; but on business grounds the necessity is just as definite. If we do our duty it will not only show the spirit that is within us, but it will also be a great advantage to us."

"Everywhere abroad there are strikes and revolutionary movements. There is no basic remedy for these except in food and work. But food and work cannot come to Europe except with the help that will come from the American people when they have a clear understanding of the European situation."

TODAY

A Little Book, \$100,000.

Trench Guns and Love.

Wanted, an Evangelist.

(By Arthur Brisbane.)

In Philadelphia, yesterday, a man who wants his name kept secret paid \$100,000 for a small, old book—a new record price. The book, seven inches long, five and a quarter wide, half an inch thick, was published in 1690, and contains nine plays by Shakespeare.

The man who bought it will enjoy it, for he will be able to say, "I paid \$100,000 for that little book," and his friends will exclaim appropriately.

Other things could have been done with a hundred thousand dollars. The

man might have given away to young readers five hundred thousand books containing Shakespeare's complete works, cheaply printed. He might have invested the money at six per cent, using the income to give away thirty thousand copies of Shakespeare each year forever.

However, all things are done wisely. The mania of collecting helps to scatter money, taking it out of large piles and spreading it around without waste of human labor. It is better to have a man say "I paid \$100,000 for that little book" than to have him point to a dozen well fed flunkies with powdered hair, satin breeches and silk stockings, saying, "I spend one hundred thousand dollars yearly on those and other human beings, to have them do nothing but wait on me."

Mr. Rockefeller, Jr., is head of the committee representing the public to see what can be done about bringing the dead labor conference to life. His job is to make labor and capital love each other.

Meanwhile, "trench guns," which are shotguns sawed off for quick handling, have appeared on the streets in Gary. The trench guns are intended to make labor RESPECT capital, whether it LOVES capital or not.

The Government Bureau of Labor statistics says a family of five needs \$2,262.47 a year. This allows the wife a hat and a half each year. It allows \$40 for amusements, \$773.93 for food, and for clothing \$613.72.

An unmarried woman needs \$1,083, and an unmarried man \$1,000 to go through the year.

At \$2,262 for five people it would take about forty-five billion dollars to provide for the one hundred million people in the United States. The income of the country is said to be fifty billions. Who spends the extra five billions?

Lloyd George's Government was defeated because from a sweeping bill reventing foreigners from making a living in England Lloyd George wanted to exempt French flying machine pilots.

He thought they ought to be allowed to take out licenses and work in England. Considering what France did to save England in 1914, while England was trying to get an army ready, and considering what the French fliers did, it would seem reasonable to let them work in England. But the English will not have it so, and Lloyd George's Government may go under. It would not be the first Government killed by stupid ingratitude.

If you can't get sugar or coal let it comfort you to know that both are going from this country to Europe, freely. By agreement with our Government England gets more than 2,000,000,000 pounds of sugar from Cuba.

A dispatch from Cardiff says one man has arranged to ship 6,000,000 tons of American coal abroad.

Vice-President Marshall, an able statesman that his country does not properly appreciate, says "what the economic life of America needs is not a law giver, but an evangelist." He things employers and employees must leave to love each other, otherwise the situation is hopeless. The world needed an evangelist 1,900 years ago. History tells you that the evangelist's job is not a pleasant one.

Word comes from Russia that the Bolsheviks want to surrender and make a deal with the Allies. It would include paying the Russian bonds, of course, because it is only for the sake of those bonds that outsiders are fighting Bolshevism.

Mr. Gompers says the trouble with the industrial conference recently deceased was too many lawyers. Big corporations had their legal sleuths advising them. You could hardly expect lawyers that live on strife to work very hard for peace.

That same Peter the Great could have given Gompers a useful suggestion. When he visited the London law court, saw all the heads with white wigs and was told that they were lawyers he said, "Why so many lawyers to create trouble? There are only two of them in Russia, and as soon as I get home I am going to hang one of them."

Alcohol From Seaweed. According to experiments made at the Pasteur Institute in Paris, an average of about six quarts of alcohol can be obtained from each 100 pounds of seaweed.

SAYS MRS. BRAGG OF NEW MARKET "DRECO IS FINE"

"It relieved my constipation, eased my stomach, made me sleep good, overcame the dizzy spells, and renewed my energy," she declares.

DRIED UP ECZEMA

Nearly everybody in Madison County, Ala., knows Mrs. Sallie C. Bragg of New Market. She is 72 years old and is esteemed by everyone. She recently gave the following letter in appreciation for what the new medicine, Dreco, did for her. She says:

"Since taking the new root and herb juice remedy, Dreco, I am entirely relieved of constipation, which has been a great worry to me for years. My stomach no longer fills up with gas as it used to, and my food seems to digest and give me strength. The backache and dizzy spells are all gone. I sleep well every night and have a good appetite. In addition to this Dreco has dried up some eczema, which has been bothering me for some time."

"In all my 72 years I've never known such a medicine, nor one which was so quick to give results. Dreco is great and I advise every one to try it."

No higher praise can be given a medicine than the straight-forward statements of good, substantial citizens right here in our midst. These statements given daily, always print the name and address of each person, so that if there is any doubt in your mind about the truthfulness of them, it's an easy matter to prove it.

Dreco, the herbal remedy, that did so much for this good lady, is a vegetable remedy, containing no iron, mercury, potash, nor any acids nor oils. It acts on the stomach to assist it to digest the food. Relieves a sluggish liver to full action, strengthens the kidneys, quiets the nerves, induces sound sleep, expels catarrh of the nose and stomach, and rebuilds a rundown system.

All good druggists now sell Dreco and it is highly recommended in Albany by Albany Drug Co., and in Decatur by Hilda Drug Co.—Advertisement.

THREE POWERFUL FORCES IN ONE

PUT UP IN LIQUID FORM

If you desire to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of prepared iron, just as you use salt when your food has not enough.

Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food does you no good. You cannot get the strength out of it, and as a consequence, you become anaemic, weak, pale and sickly looking. If you will use Ironized Paw-Paw, 1 tablespoonful three times a day before meals, you will very quickly find returning strength, digestion normal and the nervous system restored.

Everywhere you go some one can be found who has been benefited by its use or knows of a friend who has found the desired relief: all are praising it, and each expresses surprise that cures of the most stubborn cases of indigestion, nervousness and sleeplessness could be brought about so speedily.

A system that is overworked or run down requires a harmless stimulant. Alcohol lifts, but lets you fall. Ironized Paw-Paw lifts and holds you. Your druggist probably keeps it; but if he doesn't, it is sold at all drug-gists.

Ironized Paw-Paw, price \$1.20. Formula on every bottle. Mail orders promptly attended to. Interstate Drug Co., Inc., New York—Advertisement.

Limestone Property Brings Good Prices

ATLANTA, Ala., Oct. 29. (Special.)—The auction sales of real estate held at Belle Mina and Greenbrier yesterday, the second ones held at these places during the present month by R. H. Walker of Athens, with Col. J. E. T. Dowden of Waycross, Ga., as auctioneers, were phenomenally successful. The lot sales at Belle Mina comprised a portion of the tract place, which brought as high as \$140 per lot in front of Hon. George S. Houston's handsome country home, and a portion of the Penney land lying north of the Southern railroad, lots in which brought as high as \$230 per 50-ft. lot. About one-fourth of this place was sold at good prices, the owners, R. A. Smith and J. H. Walker, retaining the remainder or private sale.

In the afternoon the Bell place of 20 acres, just north of Greenbrier, belonging to Mr. and Mrs. B. E. Ren of Columbia, Tenn., was sold in small tracts and there was a whole, being sold in the latter manner to Mr. Frank G. and Miss Pattie L. Westmoreland for \$110 per acre. This is a part of their ancestral holdings and is an excellent piece of land, being surrounded by their other lands and those of Fletcher Bros. of Huntsville. The new owners were offered good prices for portions of it as soon as

they had purchased it. Mr. Walker will conduct auction sales of two close-in farms and residence property in Athens today with Col. Dowden as auctioneers.
